Engineered for tomorrow.
Built for today.

Solutions that drive performance, electrification, and decarbonization.

From off-highway to on-target, Danfoss Power Solutions delivers the technologies that help build a cleaner, smarter world.

Our full portfolio—from intelligent hydraulics and electrification to advanced fluid conveyance and thermal solutions—supports your journey toward greater efficiency, productivity, and sustainability.

Together with partners like Applied®, we're powering what's next.

See how tomorrow's solutions are ready today visit www.danfoss.com

Go for the Gold

ABB Baldor-Reliance® motors are known for this gold color representing highest efficiency available in the market.

In a world of industries powered by electric motors, ABB's SP4™ technology emerges as a game changer.

We have taken the best AC induction motor design and made it better by reducing motor losses by an average of 20% while maintaining the simplicity of today's install base.

This ABB designed and manufactured technology isn't just about efficiency, it's testament to progress weaving story where industries thrive, cost diminishes and sustainable future becomes reality.

SEALMASTER™

SS GOLD™ MOUNTED BALL BEARINGS

Sealmaster™ Stainless Steel (SS) Gold bearings feature a stainless steel insert and a multiple lip high performance seal. Specifically engineered for industries with corrosive wash down environments such as food and beverage, pharmaceuticals and chemical processing. The SS Gold mounted ball bearings provide outstanding performance in demanding corrosive environments.

STAINLESS STEEL HOUSING AND INSERTS

- Machined solid base helps to reduce entrapment points.
- Investment cast minimizes pitting, providing a smooth easy to clean surface.
- 316 passivated stainless steel provides the highest amount of corrosion resistance currently available for stainless steel bearing housings.
- 440C inner and outer rings to provide good load capacity and corrosion resistance for a wide range of applications and chemicals.
- Inner ring is annealed by set screws to reduce potential for cracking.

IP69K CERTIFIED

- Superior durability that can withstand the toughest Food and Beverage environments.
- Enclosures conforming to an IP69K rating must not only be dust-tight, but also able to withstand high pressure and steam cleaning.
- These high performance components are proven to provide durability, longer life, as well as corrosion and contamination resistance in extreme washdown environments.
