All Things Industrial®

We Are AppliedSM

Industrial Motion, Fluid Power, Flow Control,
Automation, Maintenance Supplies

Applied Industrial Technologies is a leading distributor and technical solutions provider of industrial motion, fluid power, flow control, automation technologies, and related maintenance supplies.

Our multi-channel capabilities provide choice, convenience, and expertise to MRO and OEM end users in virtually all industrial markets.

Industrial Motion

We Are committed to keeping your critical systems up and running, from bearings and gearboxes to industrial motors and material handling.

Fluid Power

We Are a leading provider of innovative fluid power solutions through unmatched engineered system design, assembly, integration & service capabilities. Our expertise in mobile and stationary machine system design enables us to deliver custom engineered solutions that position our customers to succeed in their marketplace.

Flow Control

We Are a leading process flow control company with the largest, most comprehensive flow control product & service portfolio focused on mission-critical & full-cycle solutions to support process movement across the industrial sector.

Automation

We Are an emerging provider of motion control, machine vision, connectivity products and robotic technologies with an emphasis on design, integration and assembly.

Maintenance Supplies

We Are C-Class maintenance, repair, operating and production (MROP) supplies, specializing in fasteners, cutting tools, paints and chemicals, fluid flow, safety and welding.

E-Business

We Are today's digital technologies, offering customization to streamline the online procurement process.

Visit **Applied.com** to learn more!

Connect with us    

At Applied®, we don't stop at parts.

Take a look at these value-added solutions and see what else we can do for you and your operations.

Automation

- Specializing in robotics, machine vision, industrial networking & motion control
- Delivering products, innovative assemblies & complete engineered solutions to OEMs, machine builders, integrators & end users

Flow Control

- Supplying comprehensive product solutions, including valves & automation, pumps & rotating equipment, instrumentation, plus more
- Delivering pump repair services & assembly, as well as instrument calibration, plus more

Fluid Power

- Providing repair & service offerings, including manifold design, control systems, electronic control integration & software programming, plus more
- Offering solutions that save money & improve uptime

Hose Shops

- Single-source purchasing of industrial hose needs – hose in bulk & assemblies
- Offering fabrication of hydraulic, chemical, petroleum & sanitary hoses, plus more

Documented Value-Added® (DVA®)

- Demonstrating how much customers will save as a result of the products & services they purchase from Applied®
- Impacting your bottom line through increased product life, reduced production downtime & other measurable savings opportunities

Industrial Rubber Services

- Specializing in high-quality belt splicing & repair service at your job site
- Serving as fabricators & warehouses for bulk inventory needs, as well as providing a complete line of wear products, plus more
