Project Title and quantity on the carton are fine – would prefer there to not be any “The Bindery” identification so that we can add our company logo and ship in same box – if that is possible.

Thank you

This message was sent from outside of the organization.

So do you not want a label at all or just a label with the quantity? Normally we just put Book Title and quantity on the carton.

Thanks, Scott

Hi Scott,

Following up on our phone conversation from this morning –

Please keep us updated on the completion of this job. **We are likely sending someone over to pick up on Friday — or will arrange a courier — so that we have everything in hand the same day.**

**When these are boxed on your end, could you note on each box how many pieces are inside, and avoid adding any other labeling?** We plan to ship them in the same boxes, and this will save us some time.

Thank you for your help pushing this through — we really appreciate it!

Jennifer Weseli

This message was sent from outside of the organization.

At this point the best we can do is complete 12/5.

Thanks, Scott

Good morning Scott –

Taking over for Johnny on the follow-up for this project.

Can you confirm that we are still on track to courier these back to Resco on **12/5**? We need to have everything packed and ready to ship to multiple locations on **12/8**.

If there's any possibility of completing them a day sooner, that would be greatly appreciated.

Thank you for your help on this one.

Jennifer Weseli
